HOW TO USE SHIP SERVICE TELEPHONES

1. Remove the handset.
2. Listen for the dial tone.
3. Dial the four digits in sequence.
4. After dialing, you should hear:
 - (a) Ringing signal (limit to 5)
 - (b) Busy signal which indicates the line is in use.Hang up. Wait. Dial again.

PRECAUTIONS WHEN HANDLING SHIP SERVICE TELEPHONES

1. Do not force dial while it is returning to its normal position. Let it fall back into place by its own motion.
2. Never leave the phone off the hook without completing a call. This can cause the switchboard relays to overheat. Phones left off the hook will be disconnected by the switchboard.
3. Keep phone boxes located on weather decks tightly closed when not in use to prevent salt or rain water damage.

WHEN ANSWERING THE TELEPHONE:

1. State your station name
2. Give your name and title

i.e. Pilothouse, Boatswain Mate of the Watch CIC,
Petty Officer Jones
