

Important Update About Our Reunion:

My search for rooms and a main event venue started with 25+ locations many months ago. We were extremely fortunate in 2022 to have rooms and hold the main event at the Bay Club Hotel & Marina, at an affordable price. Things were so different this time around. Prices on everything had increased. As an example, the group rate at Bay Club was \$30+ higher, and their banquet meal was \$20+ higher per person. This was the same for everybody I reached out to.

I first contacted this guy, who represents the 65' vessel Ohana, several years ago. It just never worked out for us. This time around it looked better/cheaper than the higher priced options. Plus, it was something unique. I first started having concerns when terms in the agreement would not be changed as per our conversations, and just recently, not providing an agreement with his signature. You know it is always the people you do not expect. I may be overreacting, but I/we cannot afford to have any issues with our main event.

While the initial cost of the cruise seemed appealing, after factoring in the cost of food at \$20.00 to \$30.00 per person, the total price would be close to a sit-down meal one-half mile away from the official hotel. The cruise is 13 miles, which also adds a transportation cost.

I disabled the booking link on the flyer. Please reach out to me as soon as possible if you are planning to attend the reunion.

Michael
